

ShadeView 300

by Imex Creative Products

ShadeView 300 the range gets bigger, literally! ShadeView 300 now offers you versatility with 3 meters in width allowing for a join free blind and an openness of just 5%. ShadeView 300 is a great alternative for those considering PVC alfresco blinds as it offers effective protection from the elements all year round. It is also highly suited to those harsh west facing windows that need that extra protection that only a 5% openness fabric can deliver.

ShadeView 300 is ideally suited to alfresco blinds, and awnings. Manufactured to the same standards as the rest of the ShadeView range, that has been offering shading solutions to Australians for over 20 years.

Features:

- Reduces up to 95% of the sun's harmful rays
- Controls reflected glare
- Provides shade and privacy
- Optimal ventilation and air flow
- High quality, UV resistant construction
- Mildew resistant
- Unique weave for the ultimate view
- Fire retardant additives
- Reduces cooling costs
- Weldable

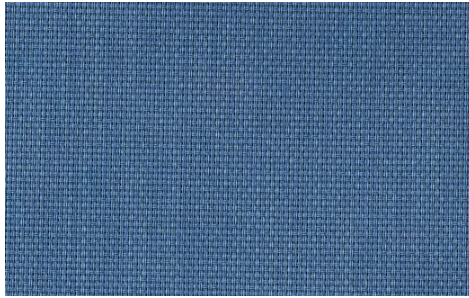

Shade without compromise, insist on ShadeView
